

# Lighted Stylet

for tracheal intubation guide(4.5mm)

**Model:**

SW-A01/SW-A02

**Composition:**

It's composed of handle with embedded rechargeable lithium battery tube stop and light wand.

**Working theory:**

Embedded in handle, the LED powered by interior lithium battery lights up and transmit the red light via fibreoptic core to the front end for guiding illumination.

**Recommended to use in:**

Facilitates in tracheal intubation as guiding lights.

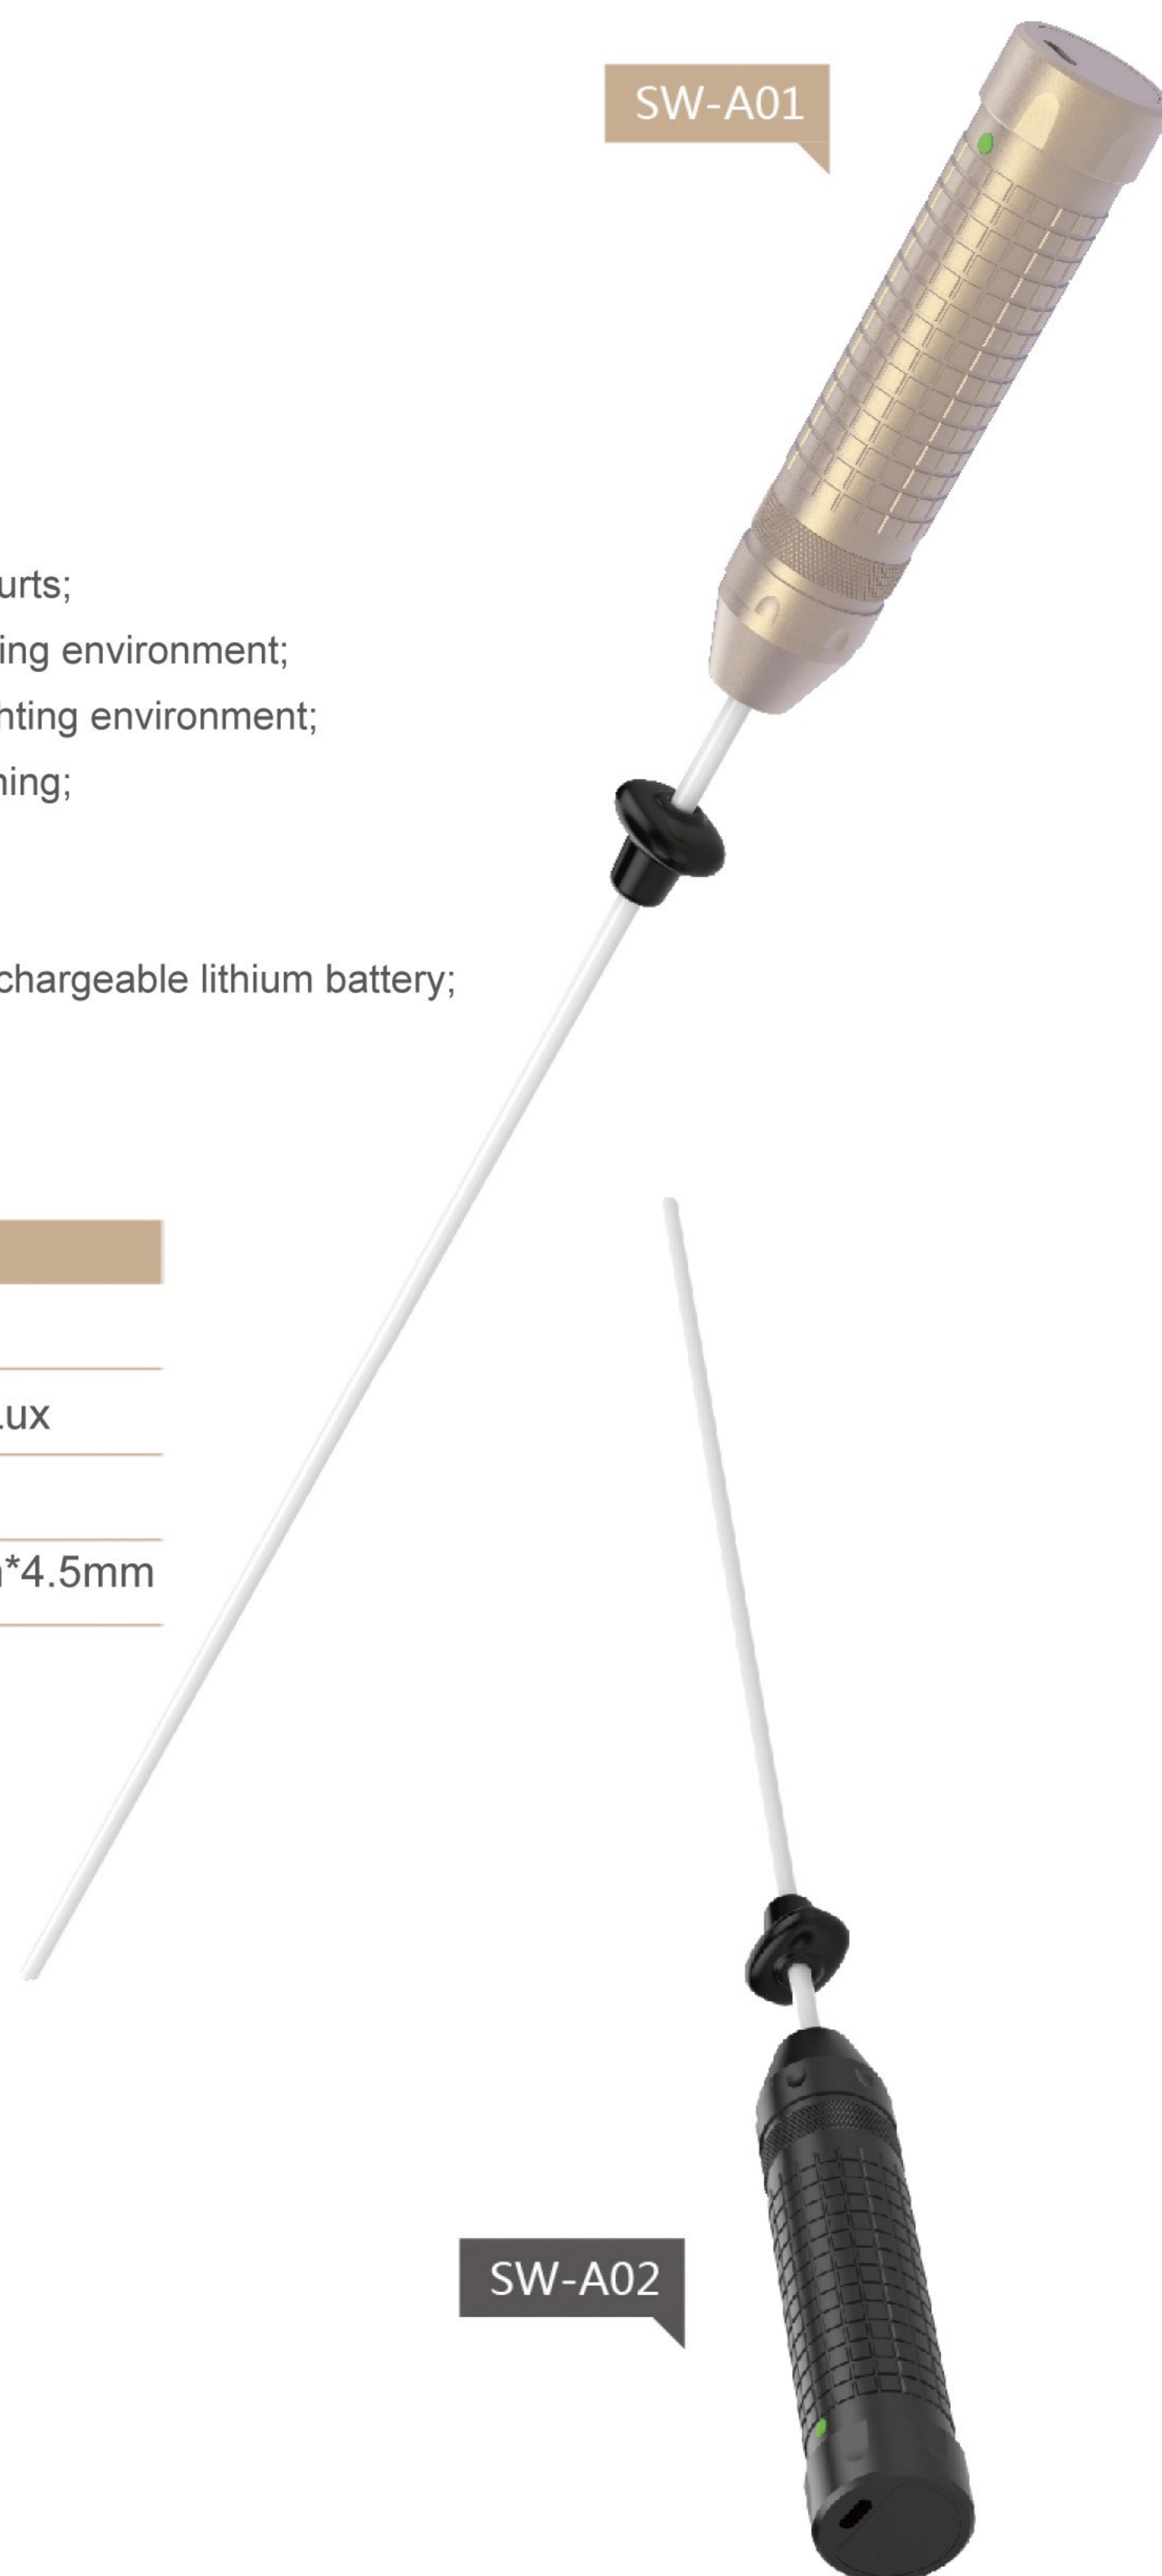

## Features:

- Orotracheal intubation guide;
- Cold light source technology to avoid tissue from hurts;
- High light intensity assures visibility in normal working environment;
- Stepless lightness adjustment to adapt different lighting environment;
- Easy malleable wand for tool-free shaping maintaining;
- Fibreoptic core for better transillumination;
- Lubricant coating to fit the tracheal tube well;
- High endurance time powered by large capacity rechargeable lithium battery;

## Specification:

Model	SW-A01	SW-A02
Color	Golden	Black
Light intensity	20000 Lux	10000 Lux
Endurance	10h	18h
Measure	350mm*4.5mm	350mm*4.5mm
